|                        |                                |
|------------------------|--------------------------------|
| <b>Product Name:</b>   | Isopropylidenylacetyl-marmesin |
| <b>Catalog Number:</b> | BCN6792                        |
| <b>Batch Number:</b>   | KLKH12b01                      |

---

## 1. PHYSICAL AND CHEMICAL PROPERTIES

---

|                              |                                                |
|------------------------------|------------------------------------------------|
| <b>Molecular Formula:</b>    | C <sub>19</sub> H <sub>20</sub> O <sub>5</sub> |
| <b>Molecular Weight:</b>     | 328.4                                          |
| <b>Purity:</b>               | >98%                                           |
| <b>Cas Number:</b>           | 35178-20-2                                     |
| <b>Physical Description:</b> | Powder                                         |

---

## 2. ANALYTICAL DATA

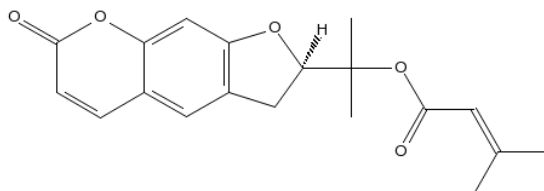

---

|              |                           |
|--------------|---------------------------|
| <b>HPLC:</b> | Shows >98% purity         |
| <b>NMR:</b>  | Consistent with structure |

## 4. USAGE GUIDE

---

|                      |                                                                                                                                                          |
|----------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Storage:</b>      | Store the product in sealed, cool and dry condition.                                                                                                     |
| <b>General tips:</b> | For obtaining a higher solubility, please warm the tube at 37 degrees Celsius (98.6 degrees Fahrenheit) and shake it in the ultrasonic bath for a while. |
